

Serrano High School Instrumental Music Department Code of Ethics Pledge for All Members

This Code of Ethics belongs to the entire program; those who have graduated and those currently enrolled. Code of Ethics violations can result in severe punishment, including dismissal from the program as well as being referred to the Serrano High School Discipline Office. The Serrano Instrumental Music Department provides every student with the Code of Ethics and also provides Code of Ethics training for all members throughout the academic year. In addition to the ethics training provided by the adult staff, it is the responsibility and expectation that new members are educated and trained in all aspects of the Code of Ethics by the current membership and alumni.

As a member of Serrano Instrumental Music, I will be held to the following standards:

- **I will not lie, cheat, steal, engage in unethical behavior nor tolerate those who do.**
- **I will not use nor be in the presence of students who are using alcohol, tobacco, or drugs.**
- **I will report violations and be verbal concerning compliance with the Code of Ethics violations.**
- **I will not tolerate retaliation against anyone who comes forward to report Code Ethics violations.**
- **I will strive to achieve and sustain the highest degree of ethical and moral conduct at all times.**

I have read, fully understand, and agree to live up to the expectations of being a student member of the Serrano High School Instrumental Music Department.

Student Signature

I have discussed the expectations with _____ of being a student member of the Serrano High School Instrumental Music Department.

Faculty Sponsor of Organization

I have read, discussed, and support the expectations the Serrano Instrumental Music Department has for my child. I will do my best to educate and enforce these same values with my student and other student members of the program who I come into contact with. I will directly notify Mr. Fell if I become aware of any student violating the Code of Ethics.
